CONTINUOUS ARM CHAIR

CONTINUOUS ARM CHAIR

The Continuous Arm Chair is our signature piece and remains a unique, trademarked Moser design.

To form the arms eleven knife-cut slices of the same board just one-tenth of an inch thick, called flitch, are laminated together. Then each continuous arm is painstakingly rasped, filed and sanded to a perfect smoothness.

Wood Species | Cherry, Maple, Walnut, White Oak, Red Oak, Ash

Shown in cherry with linseed oil and wax finish.

Finish | Natural oil and wax, stain to match customer sample, conversion varnish finish

DIMENSIONS

MODEL	HEIGHT	WIDTH	DEPTH
TMC	41"	24"	25"

Inquire about customization. Whether it's designing from the ground up or modifying an existing design, we take pride in creating pieces that ensure your space is truly one of a kind.
