With over 50 models, Diplomat Accessories offer design flexibility with a single aesthetic.

The Diplomat™ Washroom Accessory package offers a depth of options not offered anywhere else. With over 50 models, Diplomat Accessories provide design flexibility – recessed, semi-recessed, and surface-mounted models as well as the most paper product styles – including owner-supplied paper. Roll-towel dispensers are available in manual, automatic or customer choice options.

Not enough choices? Towel contracts to contend with?

Maintain design aesthetic in spite of towel contracts as most popular brands will fit. No more unsightly holes in the walls, less wasted paper and easy maintenance. Models 2A09 towel dispensers and 2A95 Combination towel and waste units provide an instant face lift. They accept most owner-provided towel dispensers – no unsightly holes in the wall from retrofits.

Grab Bars

The ADA emphasizes grab bar installation because they help the individual maintain balance, transfer, and prevent falls. Bradley offers grab bars in various lengths, styles and finishes to suit every application.

- Heavy-duty, 18-gauge stainless steel tubing for strength and durability
- Meets or exceeds requirements of ANSI Standard A117.1, ADA and ABA Accessibility Guidelines for Buildings and Facilities (ADAAG) and Uniform Federal Accessibility Standard (UFAS)
- Select configurations of the 812 and 817 series meet bariatric load requirements of the American Society of Healthcare Engineers (ASHE) 2010 guidelines for design and construction of healthcare facilities
- Attractive satin finish, safety grip finish or polished safety grip finish
- Easy to install with optional anchoring devices
- Concealed or exposed mounting flanges
- Modified bars to satisfy unique installation applications

Model 812 Series
11/2" (38 mm) OD
Concealed mount

Model 817 Series
11/2" (38 mm) OD
Exposed mount

Model 832 Series
11/4" (32 mm) OD
Concealed mount

Mirror Selection Guide

	DEFINITION	FEATURES	MODELS	MODEL OPTION CODE	APPLICATIONS	COST INDEX	WARRANTY
Standard	Also called float glass; manufactured by floating molten glass on a bed of molten tin.	<ul style="list-style-type: none"> Uniform thickness Very flat surface Best reflectivity 	<ul style="list-style-type: none"> 740, 7405 Series fixed tilt frame 747, 7471 Series frameless 747F Frosted frameless 780, 7805 Series angle-frame 781, 7815 Series channel-frame 782 Series adjustable tilt frame 		<ul style="list-style-type: none"> Interior applications Low-vandalism environments 	Standard cost	15 years against silver spoilage
Tempered	Standard glass that undergoes a heating and quick cooling process to build strength.	<ul style="list-style-type: none"> Shatters in small pieces rather than large shards Four times the strength of standard glass Some distortion inherent in process 	<ul style="list-style-type: none"> 740, 7405 Series fixed tilt frame 780, 7805 Series angle-frame 781, 7815 Series channel-frame 782 Series adjustable tilt frame 	-2	<ul style="list-style-type: none"> Interior and high-vandal environments 	1.5 times the cost of standard glass	5 years against silver spoilage
Laminated	Comprised of a polyvinyl interlayer between two layers of glass, the three layers are bonded to form a single construction.	<ul style="list-style-type: none"> Any breakage occurs in a "spider web" pattern Broken pieces safely stick to the inside layer Higher reflectivity 	<ul style="list-style-type: none"> 740, 7405 Series fixed tilt frame 780, 7805 Series angle-frame 781, 7815 Series channel-frame 782 Series adjustable tilt frame 	-3	<ul style="list-style-type: none"> High-vandal environments Higher quality reflective surface than tempered glass 	2.8 times the cost of standard glass	5 years against silver spoilage
Stainless Steel (300 Series)	Mirrored finish 300 series stainless steel.	<ul style="list-style-type: none"> 300 series stainless steel offers slightly higher levels of corrosive properties than the 400 series 	<ul style="list-style-type: none"> All models (except 747 Series frameless) 	-4	<ul style="list-style-type: none"> Ideally suited for security, park and recreation facilities More corrosive environments 	2.0 times the cost of standard glass	1 year against corrosion
Stainless Steel (400 Series)	Bright annealed, mirrored finish 400 series stainless steel.	<ul style="list-style-type: none"> More cost-effective alternative with stainless steel reflective surface 	<ul style="list-style-type: none"> All models (except 747 Series frameless) 	-5	<ul style="list-style-type: none"> Ideally suited for security, park and recreation facilities 	1.5 times the cost of standard glass	1 year against corrosion
Plexiglas*	Plexiglas is a transparent thermoplastic, and a conventional alternative to glass.	<ul style="list-style-type: none"> Less than half the weight (and 17 times greater impact resistance) than standard glass Withstands heat up to 160°F (71°C) 	<ul style="list-style-type: none"> 740, 7405 Series fixed tilt frame 780, 7805 Series angle-frame 781, 7815 Series channel-frame 782 Series adjustable tilt frame SA Series 01, 03 	-6	<ul style="list-style-type: none"> Interior security functions Best in dry, non-humid environments 	1.5 times the cost of standard glass	1 year against silver spoilage 10 years against discoloration of Plexiglas

Aerix® Hand Dryers
