

VERGE®
BY BRADLEY

Smart never looked so good

Introducing the Verge® with patented WashBar™ technology

Another breakthrough in all-in-one technology from Bradley, the new WashBar features soap, water and dryer in one sleek intuitive design.

Inspired by feedback from design professionals around the world, the integrated design of the Verge basin and the unique WashBar creates a completely touchless handwashing experience.

Incorporate a sink that makes sense into your design: a striking, uncluttered handwashing fixture with complete clean+rinse+dry functionality.

ALL-IN-ONE WASHBAR™

All the fundamentals of handwashing have been thoughtfully designed into Bradley's cutting edge WashBar.

The WashBar is a single piece of chrome plated stainless steel that combines soap, water and dryer for user convenience and design aesthetics. LED lighting on the WashBar visually orients the user along with easy to identify icons on the top of the bar.

CLEAN

- Touch-free activation
- Low level LED indicator
- Gallon soap capacity
- Simply replace soap tank – no cleaning or refilling
- Liquid and foam soap

RINSE

- Touch-free activation
- 0.5 GPM (1.9 LPM)
- Ultra-high efficient 0.35 GPM (1.4 LPM) option where water conservation is a necessity

DRY

- Touch-free activation
- Heated air stream dries hands quickly and efficiently
- Adjustable speed for quieter hand drying
