VEE TILE

ACOUSTIC DESIGN ELEMENT

Vee Tile is a modular acoustic design element that can control sound with distinct patterning and color. The CNC-cut notch styling links together across tiles and can be oriented in a variety of directions to create multiple looks. Mix and match colors or use large color zones to boldly define spaces and control sound.

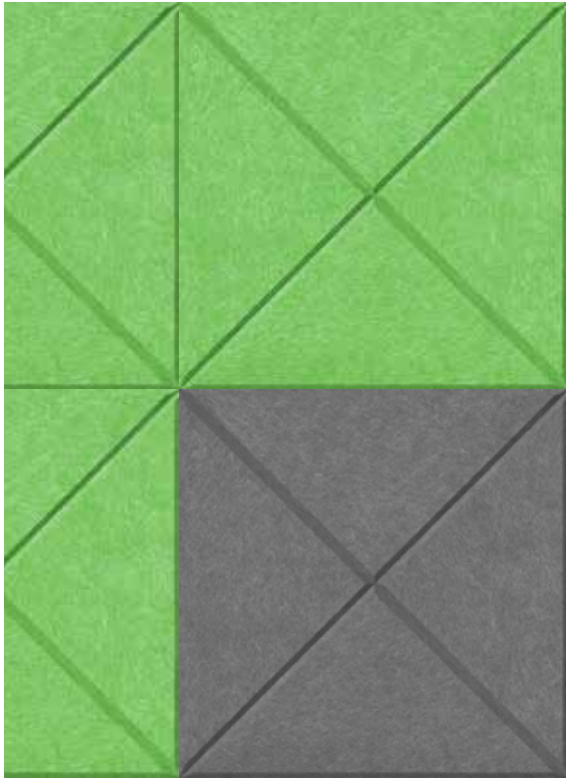

Design aesthetically and acoustically winning interior spaces with the infinitely customizable and ecologically sound EchoPanel® acoustic panels and tiles. Take the next step in functional, beautiful, sustainable design.

INSTALLATION INSTRUCTIONS

1

Standard construction adhesive recommended. (NO PVA GLUE)

Clean and prepare flat dry surface. Apply adhesive to tile back in regular pattern leaving room at edges for glue to spread.

2

Measure and lay out guidelines prior to mounting tiles.

After applying adhesive, mount Vee tiles per layout and maintain even pressure per adhesive manufacturer instructions. Clean any excess adhesive.
