

## Techstyle® Graphic

Customizable  
Acoustical Ceilings

## Techstyle® Graphic Ceilings

---

The Techstyle® Graphic Collection of acoustical ceiling panels make customizing the ceiling plane more versatile and exciting than ever. With a curated palette of pattern and color options that are through the roof and cellular construction that provides exceptional acoustical performance, Techstyle Graphic has the power to change the atmosphere of a space.

Techstyle Graphic panels offer a selection of organic, abstract and geometric designs that can be re-colored to fit any room scheme. For something totally unique, create your own design and we'll make it happen.

## Techstyle® Customizable Ceilings

---

In addition to Techstyle® Graphic, our Techstyle panel offerings include White, Wood, Color and Texture styles. All of these designs can be colored and reimagined in virtually any style you can envision. Our experts will work with you to customize a project to your exact specifications. With Techstyle panels, the ceiling is the ultimate canvas on which your design concept can come to life.

## Techstyle® White Ceilings

---

Techstyle® White panels feature a clean aesthetic with modern lines.

## Techstyle® Wood Ceilings

---

Techstyle® Wood panels offer the lightest, most acoustical wood look at the ceiling.

## Techstyle® Color Ceilings

---

Techstyle® Color panels combine acoustical performance with an extensive palette, including hues from major paint manufacturers so you can complement any color scheme. Or, bring us your own color vision. We can match any color with precision.

## Techstyle® Key Features

- Grid available in clear anodized, black and white finish
- Clean and simple integration with lighting, diffusers, and other subsystems
- Easy installation—self-squaring elements ensure exact positioning
- Proprietary lightweight fiberglass composite construction
- Monolithic appearance—large format panels, semi-concealed suspension, nominal ¼" reveals
- Convenient swing-down access to the plenum
- Trims engineered for fast installation
- Enhanced soiling resistance and cleanability
- Formaldehyde free
- Class A Fire Rating, per ASTM E84
- GREENGUARD Gold Certified
- Excellent broadband noise reduction
- Panels with patterns, textures, and solid colors are created using dye sublimation process
- Panels available in a variety of sizes; up to 24" x 96" & 48" x 72"

## Techstyle Acoustics

Techstyle® Graphic panels' honeycomb design absorbs both high and low frequencies at an impressive level, providing superior acoustical performance. **NRC 0.85** (ASTM C 423) **SAA 0.89** (ASTM C 423)

## Echelon™ Grid System

The Techstyle® Echelon™ System combines large-format acoustical ceiling panels with a precise, anodized narrow grid. Available with any of the Techstyle panels: Graphic, White, Wood, Textures, Colors, or custom design.
