LINVISIBLE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBLE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

Description

Project: Fornace Orsoni

Location: Cannareggio - Venice

Architect: Studio Duebarradue

Schedule: 2017

www.orsoni.com

Orsoni
VENEZIA 1888

Orsoni is the historical Venetian furnace that uses the same traits since 1888 to produce 24K gold leaf mosaics and enamels in more than 3.500 colors. Linvisible participated in the restoration of the last furnace of the Serenissima, Orsoni's headquarter, providing 2 doors that were coated with 13 different shades of Orsoni's hand cutted gold mosaics.

From this project a special collaboration was born, demonstrating that Linvisible's products technology and Orsoni's ancient artisanal techniques, when combined, allow spectacular results unique in their genre.

A real sensory experience for those who immerse themselves in this environment, combining ancient and modern, light and color, past and future... becoming emotional.

Furnishing specifications

For this project, LINVISIBILE provided **2 highly tailored doors**.

In addition to furnishing our doors, LINVISIBILE offered a complete service experience **supporting our clients in the design phase, transportation and installation**.

ALBA | Filo 10 Hinged door

Technical Closures | Nicchio

Finishes: Orsoni Mosaics

Accessories:

- FritsJurgens pivot system
- Simonswerk concealed hinges

Product descriptions

BREZZA

Filo 10 Vertical Pivot door

Made with a 10 cm thick panel - as thick as the wall - Linvisibile Vertical Pivot door Filo 10 is the first door totally flush with the wall on both sides.

Thanks to a sophisticated system of concealed pivots, the door can rotate on itself to different degrees of opening, obtaining a very exciting effect of movement. Available with or without stop, the door can rotate on itself up to 360 opening degrees, obtaining a very exciting effect of movement

Filo 10 is an evolution of the Vertical Pivot door, can be made in all dimensions and with all coverings, meaning it adapts to all settings, and can be perfectly invisible thanks to total continuity between door and wall.

It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

ALBA

Filo 10 Hinged doors

Linvisibile Filo 10 Hinged door is the exclusive door, which thanks to panel thickness of 102 mm, allows a perfect flush with the wall on both sides of the panel. The product stands out for only 3 mm perimetral gap between the panel and the wall. Like all Linvisibile products, Filo 10 Hinged door is distinguished by the use of concealed hinges and the absence of door frames or jambs to achieve seamless continuity between wall and door. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.
