

LINVISIBLE®

Project showcase

Muraba Residences,
Dubai

Introduction

LINVISIBLE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that's necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBLE's international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

Description

Project: Muraba Residences, Palm Jumeirah

Location: Palm Jumeirah, East Crescent, Dubai, United Arab Emirates

Architect: Rafael Aranda, RCR Arquitectes

Schedule: 2014 - 2017

www.muraba.ae

Muraba Residences is a very exclusive building with just 46 apartments and 4 penthouses. The development also includes some amenities such as a swimming pool area overlooking the Arabian Gulf and the city skyline to the East, an indoor gym equipped with the latest gear, and for ultimate relaxation a therapeutic Vitality Pool, Crystal Steam Room and Experience Shower.

Every aspect of the Muraba Residences is the epitome of considered design and flawless execution, expressed within a fluent international aesthetic.

Furnishing specifications

For this project, LINVISIBLE provided a total of **580 highly tailored doors** and **4.400** linear meters of **Skirting system**, in a variety of typologies, finishes and dimensions.

In addition to furnishing our doors, LINVISIBLE offered a complete service experience supporting our clients in the **design phase, transportation and installation**.

Finishes:

Matt RAL Lacquer, etched glass, retrolacquered glass, laminated tempered glass and aluminum for the skirting.

ALBA Fire Resistant Hinged doors (REI 30 + 90)

ALBA Hinged doors

MAREA External Glass Sliding doors (Special request)

MAREA Pocket Glass doors

ORIZZONTE Skirting system

Product descriptions

BREZZA Vertical Pivot doors

This system is the patented door that lies flush with the wall and swivels open on a vertical axis, thanks to a sophisticated hidden pivot system.

Available with or without stop, the door can rotate on itself up to 360 opening degrees, obtaining a very exciting effect of movement.

Linvisibile Vertical Pivot system is ideal for panel walls made of innovative high-tech materials, allowing designers to express their own ideas on architectural and functional space.

It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

ALBA Fire Resistant Hinged doors (REI 30 + 90)

Our fire resistant REI 30 - EI130 Hinged (mod.F11 REI), is a patented system for completely flush to wall doors and flush with the wall panels (concealed aluminum and hinges).

Linvisibile's Hinged doors are REI 30 certified, since they provide perfect fire resistance to meet the safety requirements of hotels and restaurants, contract installations, large public spaces and any other public environment where specific fire protection regulations have to be met.

Certified UNI EN 1634-1:2009 and BS EN1634-1:2009 and approved on art. 1 del D.M. 30/06/2004. Type approval number FE272EI1030P001; Certificate of fire resistance test N° 42/U/11-125FR.

Product descriptions

LINVISIBILE MAREA | Pocket door | Double leaves version | Slate stone finish | Recessed handle | Private villa | Vancouver, Canada

ALBA Hinged doors

Linvisibile's hinged system is our exclusive patented door, which is completely flush with the wall and reinterprets the traditional hinged opening; available in pull and push opening models.

It's distinguished by the use of concealed hinges and the absence of doorframes or jambs to achieve seamless continuity between wall and door.

It can be painted in the same finishing as the walls, becoming almost invisible. Or the door structure can be left visible, with only the panel forming part of the design continuum and the panel finishing. The system also can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

MAREA Pocket doors

Linvisibile presents the first Pocket door, which holds an unprecedented technological, functional and patent surplus value.

An innovative product that revolutionizes the concept of assembly, handling and maintenance of sliding doors. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

ORIZZONTE Skirting system

The flush to wall skirting, represents the most advanced frontier for furnishing domestic spaces in an elegant and modern way. Linvisibile has developed a baseboard system to better complete its offer of flush to wall elements. No element surmounts the wall and everything is perfectly flush.

Unlike the traditional baseboard, the mounted version with flush surface flows at the level of the wall without protruding. A thin line embedded in the wall that hides great technology. This solution is in fact achieved by providing the recess for the baseboard and placing the appropriate profiles during the masonry construction, before doing the plastering and the floor laying. A system that guarantees elegance, practicality and gives the room personality.
