Project showcase

German Pavilion
Expo Milano 2015
LINVISIBILE is the lead manufacturer of interior flush to wall doors 100% made in Italy, with 30 years of experience delivering to our clientele products and services of exclusive design and elevated quality.

Our business model is focused in offering a full service from support in the projecting phase to the installation on site; providing our customers all that’s necessary to create unique spaces, thanks to our wide experience in developing highly customized products of extraordinary design and materials.

Due to LINVISIBILE’s international mindset and experience, we have been honored to take part of some of the most exclusive developments in diverse areas of the globe. In this document, we are proud to showcase one of these endeavors and show you a token of what we are able to deliver.

“Feeding the Planet, Energy for Life” was the theme for Expo 2015. The German pavilion clearly oriented itself to this leitmotif – under the “Fields of Ideas” motto. Germany reveals itself as a vibrant, fertile “landscape” filled with ideas on future human nutrition. The pavilion vividly illustrated just how important dealing respectfully with nature is to our ongoing food supply, while inviting visitors to take action themselves.

The central design element of the pavilion were expressive membrane-covered shelters in the shape of sprouting plants: the “Idea Seedlings.” Their construction and bionic design vocabulary were inspired by nature.
For this project, LINVISIBILE installed the doors for the German Pavilion of the Expo Milano 2015, providing a total of 200 highly tailored doors, in a variety of typologies, finishes and dimensions.

In addition to furnishing our doors, LINVISIBILE offered a complete service experience supporting our clients in the design phase, transportation installation and maintenance.

**Products furnished:**

- **BREZZA** Vertical Pivot doors
- **ALBA** Fire Resistant Hinged doors (REI 30 + 90)
- **MAREA** Pocket doors

**Finishes:**

- RAL Lacquer and wood veneer.
**Product descriptions**

**BREZZA Vertical Pivot doors**

This system is the patented door that lies flush with the wall and swivels open on a vertical axis, thanks to a sophisticated hidden pivot system. Available with or without stop, the door can rotate on itself up to 360 opening degrees, obtaining a very exciting effect of movement.

Linvisibile Vertical Pivot system is ideal for panel walls made of innovative high-tech materials, allowing designers to express their own ideas on architectural and functional space. It can be coated with almost any type of material (metal, stone, leather) to create special atmospheres, in a tasteful way. There are lacquered (glossy or matt) and wooden versions offered as well.

**ALBA Fire Resistant Hinged doors (REI 30 + 90)**

Our fire resistant REI 30 - EI130 Hinged (mod.F.11 REI), is a patented system for completely flush to wall doors and flush with the wall panels (concealed aluminum and hinges). Linvisibile’s Hinged doors are REI 30 certified, since they provide perfect fire resistance to meet the safety requirements of hotels and restaurants, contract installations, large public spaces and any other public environment where specific fire protection regulations have to be met.

Certified UNI EN 1634-1:2009 and BS EN1634-1:2009 and approved on art. 1 del D.M. 30/06/2004. Type approval number FE272EI1030P001; Certificate of fire resistance test N° 42/U/11-125FR.
