

Title: **Terroxy Resin Systems | Terrazzo & Marble**

Key info:

- Terrazzo & Marble is a Single Source Supplier: we provide products and services for every stage of your epoxy terrazzo installation
  - o From floor preparation to strip, matrix, chip, grouting & polishing, grouting, sealing & finishing to the final clean up.
  
- The product has 3 main components:
  1. Terroxy Resin
    - a. Terroxy Resin Systems is an extensive line of resinous products specially designed for Terrazzo and Industrial Flooring. Terroxy Resin Systems provides peace of mind by enhancing the durability of your flooring system with the finest selection of quality primers, anti-fracture membranes and sealers; helping to make your flooring needs complete
  2. Divider Strips
    - a. Commonly used in terrazzo flooring to serve two basic needs: form and function. Aesthetically, divider strips are often the skeleton to the terrazzo floor's design, offering architects and interior designers the ability to create custom designs and patterns. Divider Strips may simply serve as a transition between colors or they may be bent on the job site or water-jet cut at the factory to form intricate designs, logo artwork and lettering. The thickness and metal of the divider strip may also be varied to compliment the flooring's design. The divider strip can be as apparent or discrete as your design requires
  3. Aggregates
    - a. Aggregates typically representing 70% of the terrazzo flooring design mix. These aggregates are most commonly marble chips; however, glass and other specialty aggregates are also suitable for terrazzo flooring. Since 1947, Terrazzo & Marble Supply has offered a variety of crushed marble and specialty aggregate for the terrazzo industry. Our history and experience have uncovered the most complete and exciting offering of specialty aggregate for terrazzo flooring. All chips are produced with a consistent crush, cleaned and dried to ensure a quality terrazzo design mix.
  
- Benefits / Characteristics
  - o **Durability and low maintenance** – resistant to chemicals, oil, grease and bacteria, Terroxy Epoxy Matrix is ideal for commercial, industrial and institutional applications. This special formulation does not allow for colors to fade or wear thin. The colors you choose today will be just as vibrant in 40 years.
  - o Terroxy Epoxy Matrix offers designers the ability to create the most distinctive patterns and the most vibrant color palette for their projects. This **unlimited design** and **color flexibility** is unique to epoxy flooring. By selecting the appropriate colors, patterns and aggregates, designers can create virtually any design imaginable.
  - o **Cost Effective:** consider the lifecycle of an average commercial flooring system. During the lifetime of a building, the total cost of flooring may exceed 35 times the initial cost. With terrazzo flooring systems, floors will typically last the lifetime of the structure. While other systems may require many repairs or even replacement utilizing additional valuable resources, terrazzo flooring systems require minimal maintenance.

- Common applications: Airports, Cafeterias, Hospitals, Locker Rooms, Museums, Office Buildings, Restaurants, Schools, Shopping Malls, Stadiums & Convention Centers
- Post installation: Terroxy Resin Systems also provide peace of mind by enhancing the durability of your flooring with the finest selection of quality primers, anti-fracture membranes and sealers; helping to make your flooring needs complete.
