Albertslund Mini Post

The fixture emits symmetrical glare-free light directed downwards. The top shade helps direct the light downwards and prevent light from being emitted upwards. The white painted reflectors result in diffuse and comfortable light distribution.

Product description

The design is based on an anti-glare ring, conical reflectors and a circular top shade, which serves as the primary reflector.

Tense design
Different colour variants.
Part of a product family.

Mounting tenon of die-cast aluminum, 4mm (0.18") thickness for T-DRA-5”-3” or T-RSA-4.5” poles.

Light description

The fixture emits symmetrical glare-free light directed downwards.
The top shade helps direct the light downwards and prevent light from being emitted upwards.
The white painted reflectors result in diffuse and comfortable light distribution.
The reflector ring protects against direct glare and does also serve as a heat sink.
Provides a high level of vertical light for people to feel safe and comfortable.
Two LEDs ensures a good balance between the uplight and downlight.
The fixture design is identifiable when the light is on.
LED technology with more options of standard CCTs.
Electronic dimmable driver
