Environmental Facts

PolyTurf Plus Pad and Pour Flooring

Sustainability at Tarkett is based on Cradle to Cradle® principles. This approach to design attempts to create a sustainable loop of production, use, and reuse, with minimal environmental effect and optimal product performance in the process. To achieve these goals, Tarkett divides the product life cycle into four groups: good materials, resource stewardship, People-Friendly Spaces, and Reuse and Recycle. The ways in which PolyTurf Plus embodies these individual goals are outlined here.

- Contains natural materials
- No California Prop. 65 chemicals
- No formaldehyde
- Free of heavy metals

- Uses rapidly renewable materials
- A history of conservation in manufacturing

- Low TVOC emissions
- GREENGUARD Gold certified
- Requires no harsh chemicals to maintain
- Utilizes no solvents
- Utilizes a solvent-free CRI Green Label certified adhesive

- 100% recyclable*
- Contains recycled content
- Allows potential overlay
- Recycled content helps divert material from landfills

*Recycling facilities may not exist in your area. Transportation of the material may be required.
