Environmental Facts

EcoPure Linoleum Sports Flooring

Sustainability at Tarkett is based on Cradle to Cradle® principles. This approach to design attempts to create a sustainable loop of production, use, and reuse, with minimal environmental effect and optimal product performance in the process. To achieve these goals, Tarkett divides the product life cycle into four groups: good materials, resource stewardship, People-Friendly Spaces, and Reuse and Recycle. The ways in which EcoPure 3.2 mm embodies these individual goals are outlined here.

- 95% natural raw materials on average
- Made with linseed oil, rosin, wood, cork, and limestone
- No REACH restricted chemicals
- No California Proposition 65 restricted chemicals
- No Formaldehyde

- ISO 14001 certified manufacturing
- Cradle to Cradle® Silver certified
- 50% reduction in waste over 3 years
- 32% reduction in water through a closed loop system
- 3% reduction in energy consumption over 3 years
- 60% increase in recycled material over 3 years

- Low TVOC emissions: $<100 \mu\text{g}/\text{m}^3$
- FloorScore® certified
- Natural bacteriostatic properties
- Requires no harsh chemicals to maintain
- Top Clean™ xp treatment reduces maintenance

- 100% recyclable*
- 30% average pre-consumer recycled content
- Made with approx. 10% re-processed linoleum powder

* Recycling facilities may not exist in your area. Transportation of the material may be required.
