An aerial night photograph of a city, likely Rome, showing a dense urban landscape with illuminated buildings and a busy multi-lane road filled with cars and buses. In the foreground, the rooftop of a large building is visible, featuring a metal framework and a red 'VSA' logo. The text 'COSENTINO SURFACES' is overlaid in large, white, sans-serif capital letters across the center of the image.

# Mission

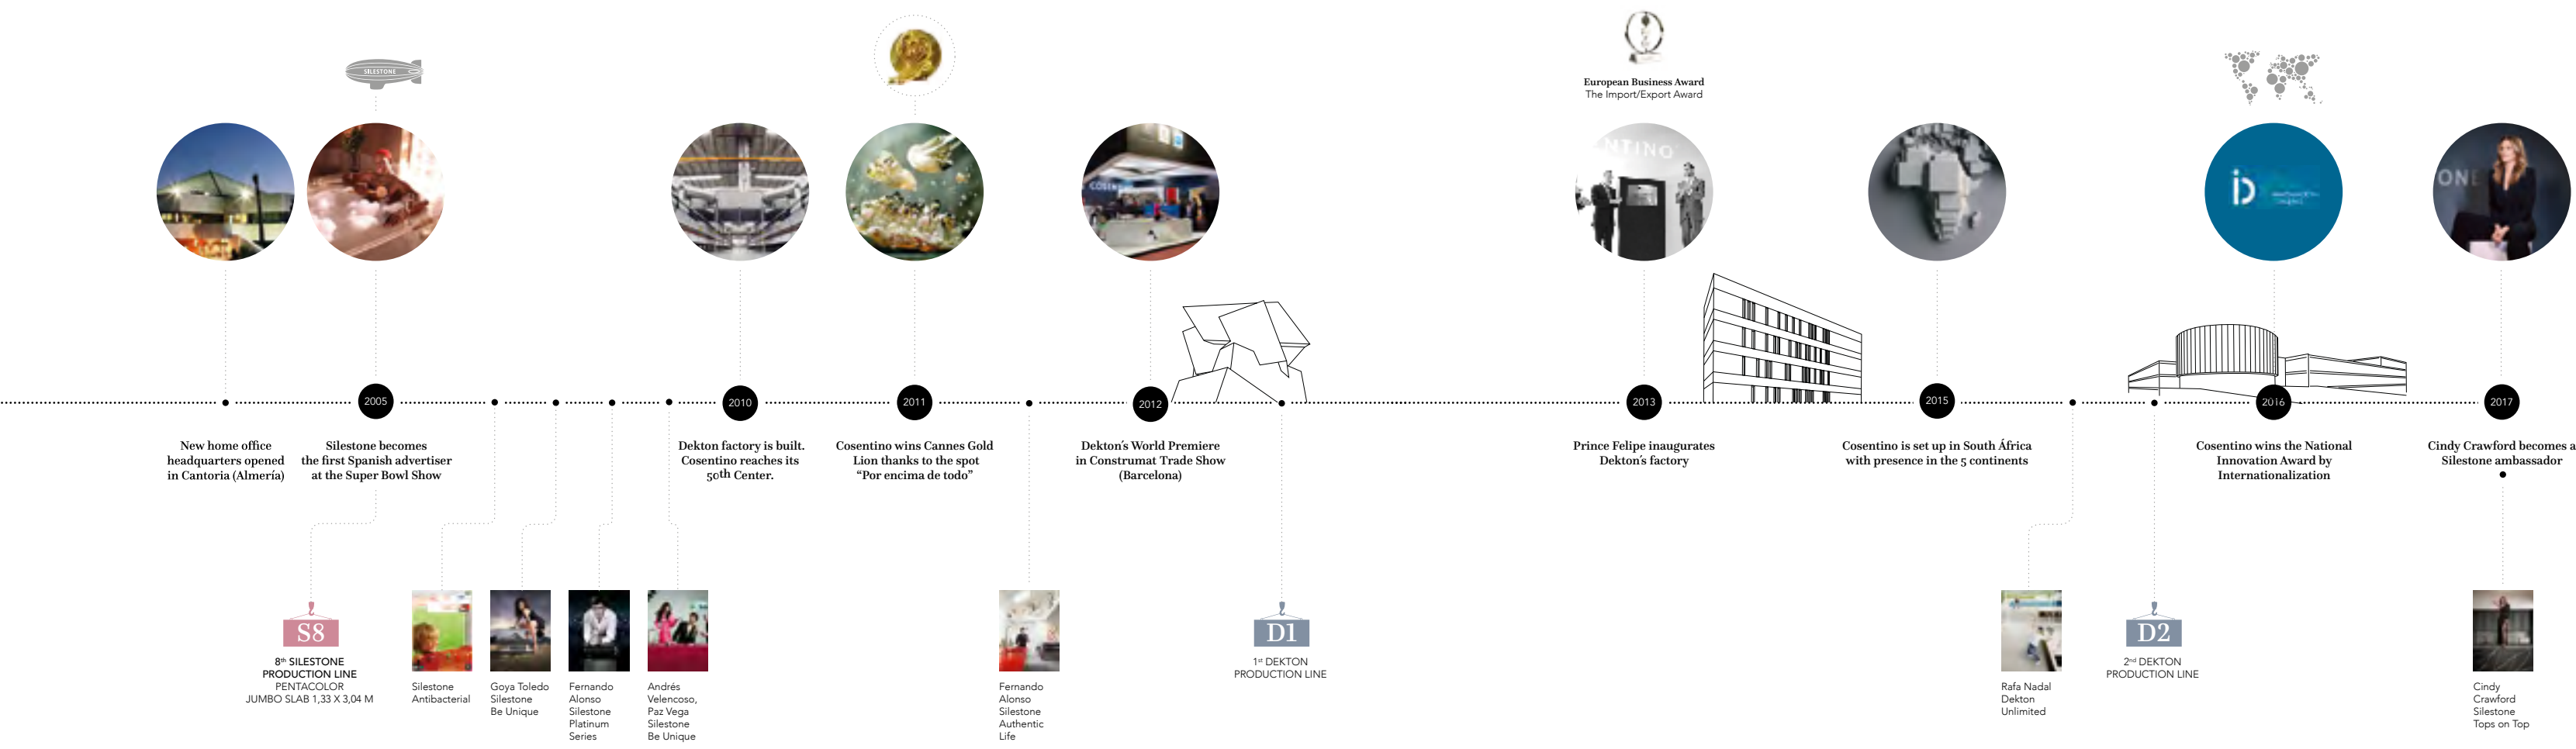

*To be the leading company  
that, together with our clients,  
responsibly imagines and  
anticipates high value, innovative  
surfaces for the world of  
architecture and design.*

# Vision

To be the global leader in the surfaces market via our brands, offering innovative architectural solutions that provide design, value and inspiration to our clients' lives.

SILESTONE®

# Quartz Surfaces

*Silestone presents extreme durability in kitchen and bathroom and other spaces where traffic and daily use is high. Enjoy the endless colors possibilities.*

The advantages of Silestone are numerous. Silestone is low maintenance and has a high resistance to stains and scratches, as well as a low liquid absorption rate. Silestone's nearly indestructible surface is stain, scorch and scratch resistant. With a very low absorption index and a minimal number of joints, Silestone is perfect for spaces where liquid exists. Silestone is resistant and continues to be enjoyed over time, going beyond the surface. It is manufactured in more than 100 colors, three textures and various formats, making it highly versatile. Colors range from muted tones that are generally associated with natural stone to vibrant colors that are not found in nature. Silestone's color uniformity and consistency allows for an unlimited number of edge details including but not limited to: bevel, ogee, bullnose and waterfall. It is also malleable enough to be used in large pieces without requiring joints. Silestone is the perfect choice for kitchen, bathroom, flooring, cladding and unlimited applications.

SILESTONE®

# Product News

*Silestone is continuously reinventing itself and following new trends on colors and applications.*

New

## Silestone® Eternal Collection

The Silestone Eternal Collection is a series of new colors inspired by some of the most desired exotic stones with a reputation for being beautiful and timeless.

Today, marble-looks are making a statement not only in the world of architecture and design with surfacing, but also in industries such as fashion and home accessories.

Silestone® Statuario

Feel the new sensation over your countertop.

Same Resistance. Best touch Ever.

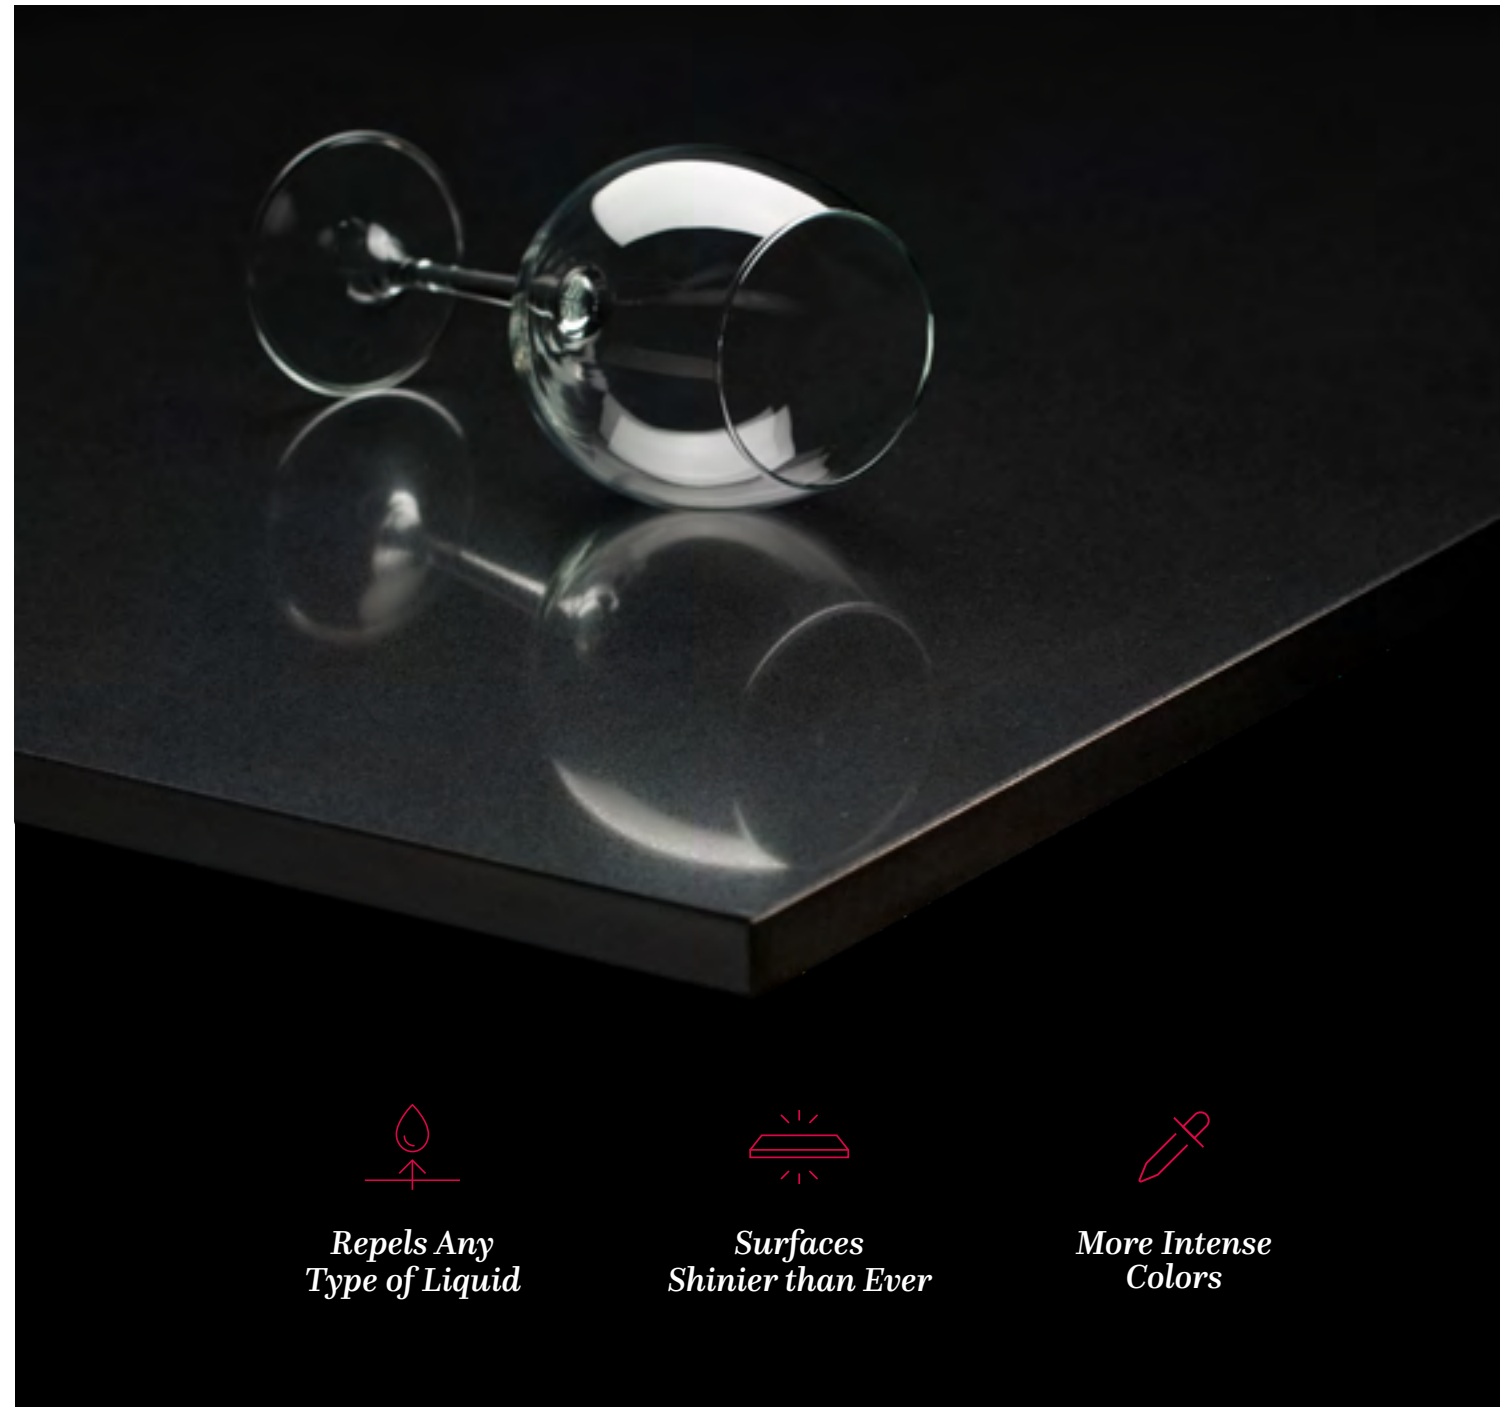

New

## N-Boost Technology by Silestone®

*The hydro- repellent properties of N-BOOST prevents the clinging of common liquids in kitchen and bathroom spaces. This is specially useful when liquids remain on the surface for hours: with N-BOOST preventing them from binding to the surfaces. Thanks to N-BOOST, cleaning is much simpler.*

Easy Clean

*Repels Any  
Type of Liquid*

*Surfaces  
Shinier than Ever*

*More Intense  
Colors*

New

## White Essentials

*The beauty and purity of white transcends beyond multiple shades and spaces.*

*White is neutral but classic and provides a touch of brightness, expanding physical boundaries.*

SILESTONE®

# Benefits

Silestone® is made out of Natural Quartz created to provide color and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum safety and hygiene.

SILESTONE®

# N-Boost

Technology On Top

\*Check availability on Silestone® colors with N-Boost

## Resistance to Stains

Silestone® is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

## Resistant to Scratching

Quartz is one of the hardest minerals that exists. This makes our products very durable, with a high level of resistance to external damage.

## Resistant to Impacts

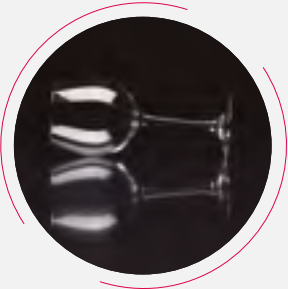

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.

Easy Clean

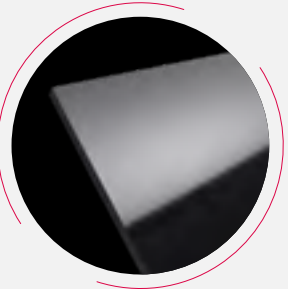

## Repels Any type of Liquid

With N-B00ST, cleaning has never been easier thanks to its superior stain resistance.

## More Intense Colors

Thanks to N-B00ST technology, colors are more authentic and intense.

## Surfaces Shinier than Ever

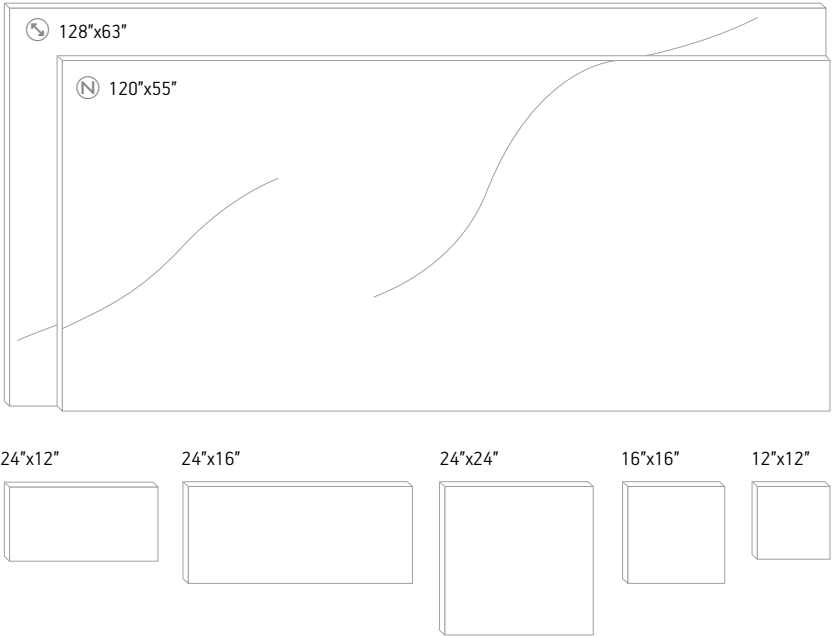

Silestone now shines more than ever. N-B00ST creates a more even surface, causing light to reflect it more intensely.

SILESTONE®

# Available Tile and Slab Sizes

Silestone colors are available in regular slabs\*  
55"x120" and Jumbo slabs up to 63"x128".  
Silestone is available in the following tile formats:  
12"x12", 24"x12",24"x16",  
16"x16",24"x24" and 36"x12"

## Jumbo Size

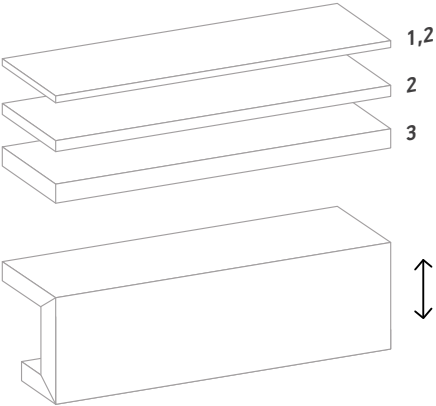

Cosentino® is one of the few manufactures to offer quartz slabs in Jumbo format (maximum 63x128"). This format allows the creation of large surfaces with a minimum number of joints. It allows versatility of design and greater hygiene. It allows the manufacture of large islands in just one piece. This way, we optimize the use of the slab and reduce wastae.

\*Check available slab format with your local center.

SILESTONE®

# Thicknesses

Silestone® slabs are sold in thicknesses of 1.2, 2 and 3cm. Different pieces can also be combined to create thicker edges.

\*Measurements given in centimetres

SILESTONE®

# Textures

With the aim of being adapted to your style, Silestone offers you different textures to any of your chosen applications. Polish, Suede or Volcano are three possibilities that make your imagination fly and have your countertop, flooring or cladding with the texture that you have always wanted.

## Suede

The Suede or matt finish, recently improved by Silestone® offers a flat, non-rugged feel that provides a unique look and feel on account of its beauty and elegance.

## Volcano

Volcano is a rustic texture, rough to the touch while also being smooth. It is the result of research into how to create a rugged surface that is both attractive and pleasant to the touch for use in kitchens and bathrooms.

## Polished

All the colors of Silestone® and ECO Line Color Series are available in this texture that is smooth to the touch as well as having a consistent, intense, and uniform color.

# Applications

*Thanks to its remarkable characteristics, Silestone is the ideal surface choice for unlimited applications.*

## Kitchen Countertops

Silestone is the only quartz surface with a 25 year transferable warranty. It also offers a wide range of colors and textures to transform your kitchen into a unique space. Silestone can be used in a variety of applications, including countertops, flooring, cladding and backsplashes or even furniture.

*“The Kitchen is the heart of the Home”*

Silestone® Eternal Serena  
Eternal Collection

# Integrity Sinks

No pieces, no creases, no limits. Integrity wants your kitchen to be whole; a place where there is no start or finish. Integrity gives you the sensation of unity, of perfect integration with the rest of the elements of your countertop.

## NEW Integrity TOP

*One piece.  
Easy installation.  
It’s that simple.*

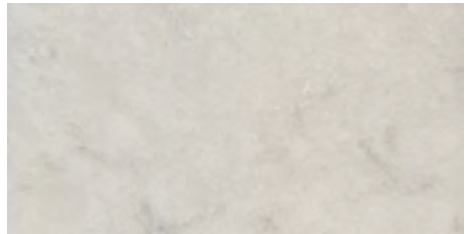

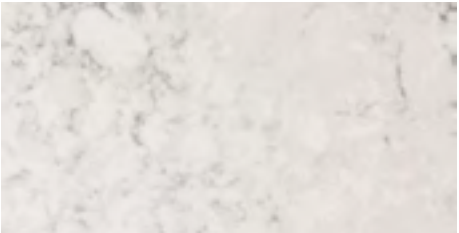

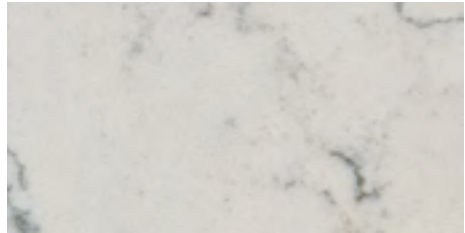

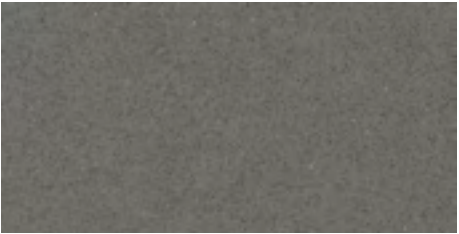

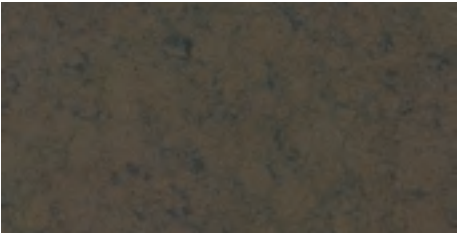

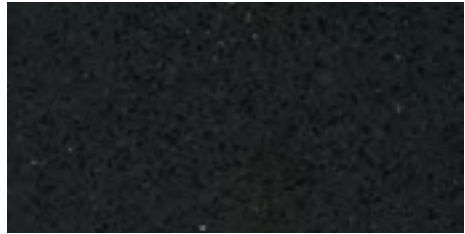

The Integrity Top model is the new above-counter, easy-to-install sink that creates a sense of total unity and integration above a Silestone® countertop.

Like the rest of the Integrity line, it has all the characteristics of Silestone®: superior scratch and stain resistance, extreme durability and high-performance design.

With no complications or need for special tools, it is a single-piece design that offers an end result of extraordinary visual harmony.

# Bathroom Countertops

*Bathroom Collection by Cosentino is an unique concept in the architectural sector based on the use of single materiales that offer superior performance and remarkable beauty. Silestone is a surface made with quartz available in more than 70 exclusive colors.*

Silestone possesses the ideal characteristics for bathroom countertops. With a low absorption level and virtually no joints, the bathroom surface will remain unchanged after its daily use.

# Bathroom Cladding

Bathrooms are personal spaces where one should feel relaxed and refreshed. There's no reason these areas should be drab or feature less design!

Silestone reinvents the traditional design of the bathroom space with custom-made large format panels. It can be installed vertically as wall cladding or horizontally as flooring. This customization eliminates joints and creates visual continuity.

# Bathroom Flooring

Bathrooms are a high traffic area and the durability and resistance of Silestone reduces wear on bathroom floors. Its minimal maintenance requirements and low porosity make it the ideal product for rooms in which water and other personal hygiene products are used. Environments with damp conditions or changes in temperature require flooring that offers outstanding performance. Silestone not only meets these requirements, it exceeds them with the added benefit of attractive design.

DEKTON®

# Ultracompact Surfaces

Dekton® is a sophisticated mixture of the prime materials used to manufacture glass, modern porcelain, and quartz surfaces, employing an exclusive technological process called Sinterized Particle Technology, which involves an accelerated version of the metamorphic changes that natural stone undergoes when exposed to high pressure and temperature over thousands of years.

*Dekton® uses a 25,000-tons press that turns the panel into a large-format highly resistant ultracompact surface.*

Thanks to the manufacturing technology Dekton® employs, you can get colors and textures of varying features, including highly pure and chromatically homogeneous solids, materials with very natural veins and movements, or more daring ranges of colors for any table or furniture.

# Product News

*Dekton is always reinventing itself*

New

## Industrial Collection

*by Daniel Germani*

Dekton’s Industrial series was created to pay tribute to the beautiful imperfections of the metals and stone in all their different stages of aging.

Organic processes that are reflected in the richness and complexity of oxidation and the authentic beauty of maturing stone.

Dekton’s unparalleled technology gives us the tools to explore and design outside the box and the result is a series of colors that celebrates these incredible materials.

Manufactured for living.

# Kitchen Countertops

Dekton® is a long-term product for those looking to turn their kitchen into a unique space.

Dekton is a long-term product for those looking to turn their kitchen into a unique space. It allows installation in one piece with no cuts, no joints, no limits, just the appeal of a completely uniform surface, which fits seamlessly into a variety of different design styles.

Dekton combines the qualities expected by the chef in all of us. It is a clean surface that is nice to the touch, resistant to all the daily grind that takes place in a kitchen over years of use. An ultra- sophisticated

material for busy everyday life, capable of creating spaces that make the preparing food, day after day, a pleasant experience that precedes the pleasure of sharing a meal with friends and family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of Dekton is a breakthrough in engineering and it resists scratches, stains and traces of heat.

Dekton® Kelya

# Outdoor Kitchen Countertop

*Cook with the Sky as your Roof*

Dekton® Zenith

Cooking is definitely a pleasurable experience and doing it outdoors, usually results in a small social event. Everyday celebrations that we can enjoy with company around a grill. Dekton®, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbeques.

Dekton® provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils at high temperature... Dekton® will resist the demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, Dekton® simply needs an effortless, fuss-free cleaning so that it can showcase its best again.

# Bathroom Countertops and Wall Covering

The bathroom is the space in the home, where hygiene and harmony need to express themselves in the best possible way. A peaceful environment devoted to personal care and hygiene - a space to relax and unwind free of any worries.

Dekton®, thanks to its low porosity, is completely waterproof against liquids.

Water glides smoothly without ever penetrating the surface. This, along with unchanging beauty, results in extremely easy cleaning.

Their textures and colors are an endless source of inspiration for the design of water-related areas, we're talking about Dekton®, its possibilities are endless.

*Dekton® Glacier  
X-Gloss*

*Dekton® Aura*

# Façades

Dekton is available in large format panels with minimum thickness, rewriting the rules of what is possible with Ultracompact Surfacing materials. Dekton panels measure 56" x 126" with a thickness range of 8mm to 30mm. Aside from the advantage of its size capabilities, DEKTON is highly resilient and can be installed as part of ventilated rainscreen system, or, due to its

remarkable durability and low moisture absorption, installed as a direct adhere façade, similar to dimensional stones like granite.

DEKTON is the architect's choice when unlimited surface and space designs are required, where color and texture flow freely in all directions inside and out, expressing itself in all of its fullness and versatility.

## *High Performance All Purpose Façades Designing Without Limits*

Large Format Panels: 56" x 126"  
Thickness: 0.31" , 0.47" and 0.79"  
Flexural strength  
Excellent dimensional stability  
Resistance to freezing and thawing  
Unmatched Color stability

# Flooring Solutions

DEKTON Ultra-Compact Tile for Floor & Wall coverings are a universal architectural application material that is better than porcelain for both indoors and outdoors. The revolutionary DEKTON properties allow Architects & Designers

total freedom to design for any application and project. With a variety of sizes and thicknesses, DEKTON is the perfect fit for any project that is considering Large Format Tile!

## Dekton Flooring Advantages

Dekton has gone through 3rd party TCNA Standards according to ASTM testing methods and in the most important areas of value, exceeds the standards and test results of porcelain tile! When you compare the results in breaking strength (Flexural) or breaking strength (Point Load) or flatness, abrasion resistance, scratching, staining and UV ray resistance, DEKTON is an almost indestructible product!

## A solution for Stairs

Stairs can be a challenge for the architects and designers that want to cover them with a material that can be adapted to any space, Dekton, provides the perfect solution and versatility. Dekton stairs can be presented as raised stairs or traditional stairs because of the different thicknesses, 8mm, 12mm, 20mm or 30mm, allowing you to provide the best application for the most demanding people.

## Unlimited Sizes

As a value unmatched by other large format products, DEKTON offers a variety of sizes and thicknesses. From standard nominal sizes of 28"x 28", 56"x 56", 56"x 28" or 62"x 28" 41"x 28", 56" x 41", 56" x 62" and 56" x 31".

# Aura Bookmatch

*With Aura we have evolved from a single slab design to an endless symmetrical pattern. With 8 unique designs, we can reproduce matching compositions that allow continuous vein matching from slab to slab.*

THERE ARE 2 POSSIBLE WAYS TO ORDER AURA:

**Regular Aura slabs.**  
You will receive a random pattern and the slabs are available in our warehouse.

**Book and Vein matched Aura slabs.** These slabs are available on demand and will be inventoried at our HUB facilities. Vein and book matched materials will be charged at an additional fee.

Aura is matched vertically and horizontally; we have a system with letters and numbers so you can select the pattern that better fits your needs. Notice that you can choose different combinations depending on the amount of vein you like in your design. You may also choice from vertical or horizontal matching as well as traditional mirror bookmatching effect or vein matching.

SENSА BY COSENTINO®

# Protected Natural Stone

*Sensa is a maintenance free premium Natural Stone brought to you by Cosentino, a world leader in the natural stone industry.*

Sensa is a granite surface by Cosentino, a high-quality surface that offers such reliable performance that it comes with a 15-year certified guarantee. We travelled all the way to Brazil and India to find the most beautiful stone that nature can create. This stone was chosen following strict criteria of aesthetic excellence that resulted in unique, elegant surfaces with an exotic, yet subtle, touch. Unique. The adjective is well-chosen. Every Sensa slab is different from the rest because each surface has exceptional veining that is found in no other. A product idea for demanding customers who require a material that is resistant to scratches and stains and that offers outstanding performance over time.

Sensa® Amelia Ridge

SENSA BY COSENTINO®

# Advantages

Sensa Protected Natural Stone with SenGuard™ Adds Elegant Style To Your Kitchen with Long-Term Stain Protection.

- 

100% Stain protection with SenGuard technology.
- 

Does not require sealers or specialized cleaners.
- 

Maintenance-free Premium Natural Stone.
- 

UV resistant - Sustainable for Outdoor Applications.
- 

15-year Transferable Warranty.
- 

Withstands Temperatures of up to 5720 F (3000 c).

Sensa by Cosentino® consists of maintenance-free, high-quality, natural granite offered by Cosentino, a global leader in the natural stone industry for more than 80 years. Sensa by Cosentino® has a revolutionary protective treatment that provides high stain resistance and has a 15-year transferable warranty. You will discover that Sensa by Cosentino® offers you a range of colors to combine with any décor scheme or project. A protective treatment is applied to each slab of Sensa by Cosentino® in Cosentino's modern facilities. This protective treatment has a 15-year transferable warranty that will allow you to continue to enjoy the natural beauty of your Sensa by Cosentino® countertop for a long time. With Sensa by Cosentino®, you will add an elegant touch to your kitchen and will be highly protected against common household stains.

SENSA BY COSENTINO®

# SenGuard Protection

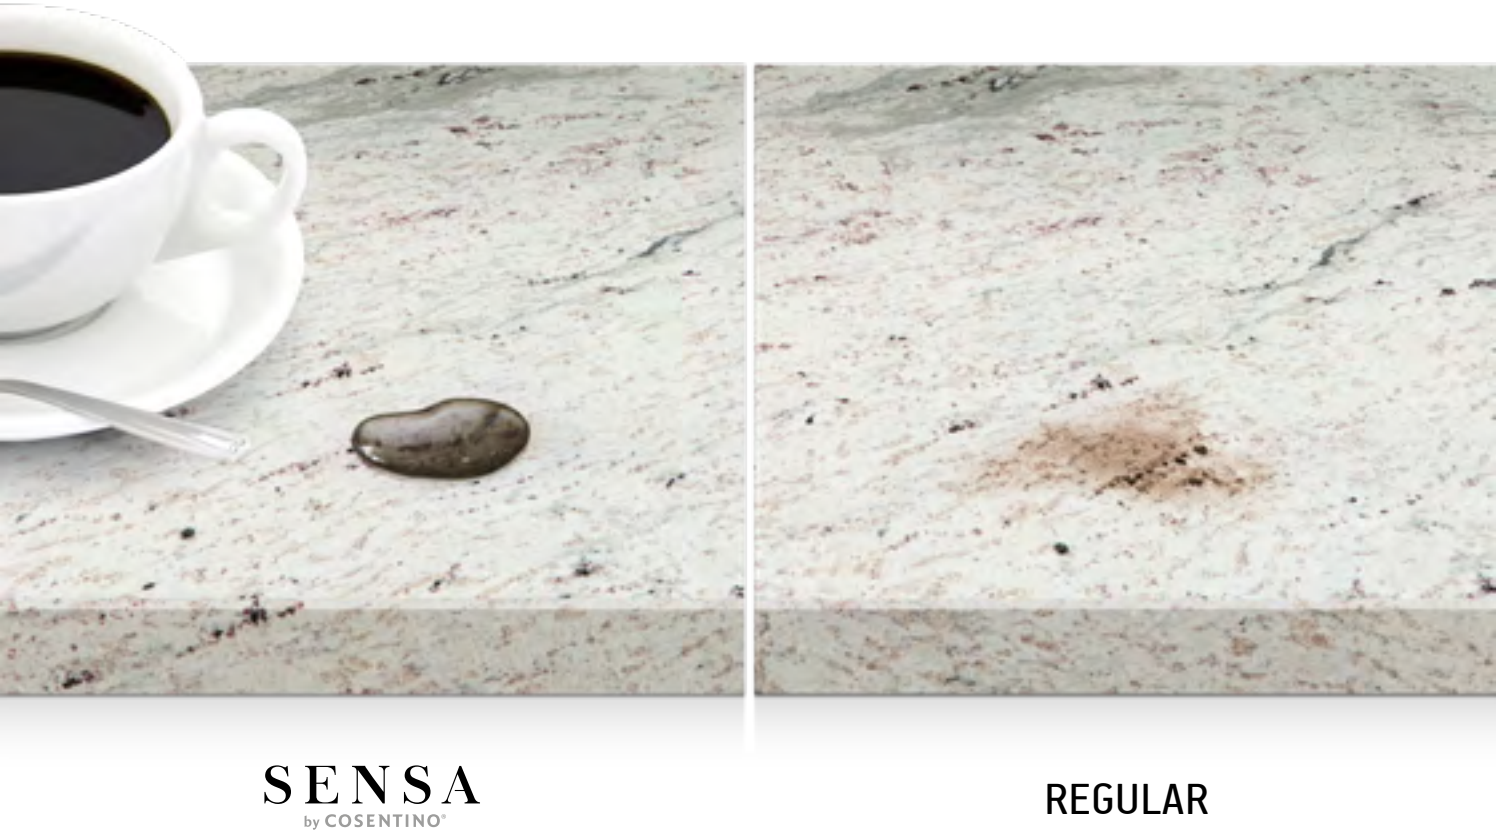

SenGuard is a proprietary stone treatment that is used to protect Sensa granite from staining. SenGuard is not a sealer, it bonds to the granite surface like no other sealers can.

The SenGuard treatment, unlike common sealers, allows the stone to breathe by anchoring to the stone lattice while preserving the stone's natural, beautiful color for years to come.

- No sealing required.
- Enters stone lattice and chemically bonds, allowing stone to breathe.
- No special cleaners required. Common household cleaners do not affect the SenGuard protection.
- SenGuard remains bonded to stone.
- Proprietary treatment applied in state-of-the-art controlled environment facility.

Dekton® Blanco Gabrielle

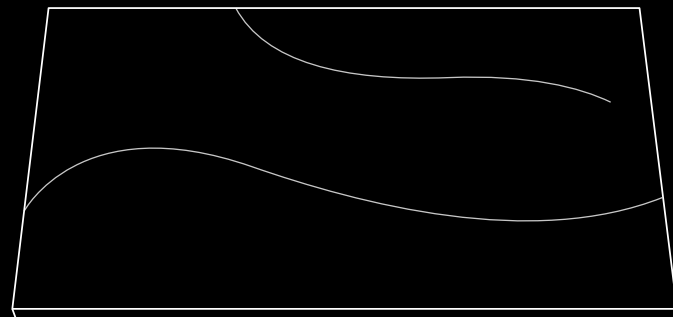

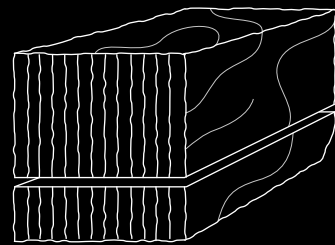

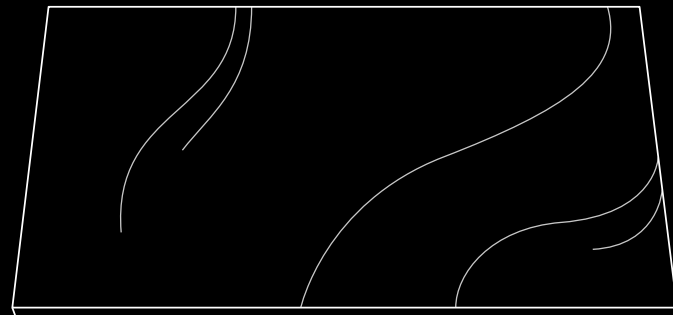

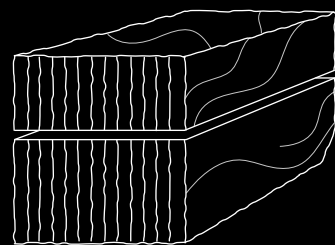

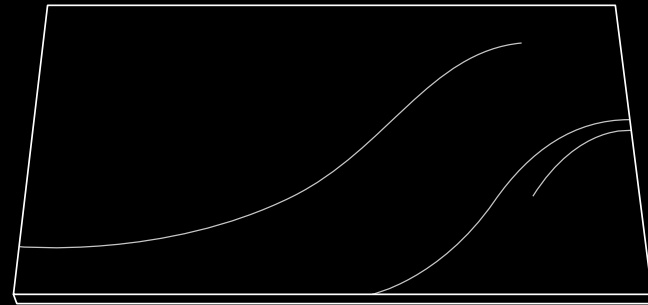

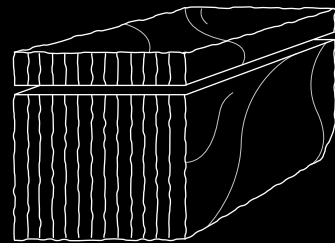

# Unique Exclusive Design

Works of art that have required millennia to finish are now are part of the finest collection in the world.

Cosentino's experts selected these natural stone paintings one by one to bring them from the other end of the globe to the most elegant, personal and exclusive museum: your home.
