

Minimal.

DESIGN PROCESS

Design process and renderings

We provide 3D design and renderings of your new kitchen and bathroom space with detailed elevations and cutsheets. Initial kitchen design and elevation are complementary, renderings and additional revisions are subject to a retainer. Basic electric and plumbing provided upon contract signing.

Cad design software used Autodesk Autocad

Native CAD integration into Architects drawings with measurements in metric and imperial.

3D and renderings softwares used Autodesk 3D Studio max - Maxwell render

Photorealistic renderings.

Full Service - Design & Installation

CONCEPT > DESIGN > FIELD MEASURE > MANUFACTURE > DELIVER > INSTALL > SERVICE

Minimal utilizes the latest CAD software to ensure accurate projects that can be easily integrated into any architect's native plans. Our team can take field measurements or start from an architect's plan to provide complete Minimal kitchen design, photorealistic 3D renderings can also be requested.

Minimal provides a team of expert Installers that guarantee the same level of precision and attention to detail provided by our designs. The average installation time for a medium size kitchen is 4-5 days + 7 days for countertops that are templated with precision after the kitchen cabinets are installed.

There is a 10 Year warranty on all manufacturing defects for Minimal's cabinetry. For all appliances, after sales service and warranty is provided by the manufacturer but if purchased through Minimal we will facilitate and expedite any issues. Maintenance and after sales-service of Minimal's cabinetry under warranty will be provided free of charge.
