TERRACOR[®] AÇO CORTEN/ÓXIDOS

Revestimento que recria, com nuances metálicas, diversos tons de oxidação, como latão, cobre, azinhavrado, “vert de gris”, aço corten e mais. É um acabamento rústico que leva sofisticação para projetos contemporâneos de arquitetura e decoração. A cartela de cores é ampla e fiel aos efeitos naturais de oxidação e envelhecimento de metais.

Ideal para ambientes internos e externos, possui alta resistência e durabilidade.
