

AU BON PAIN – BAKERY CAFE

Boston, MA

Company: Allevator Architects

Architect: Jenna Stacer Miccile

Material used: WF100 Desert Glow

Desert glow was used in Au Bon Pain to get this clean woodgrain look on the counters of the café. The design intent was for Au Bon Pain to return to its café origins and reflects its baking heritage. Desert Glow was selected for all the millwork in the café as it reinforced the integrity of this heritage.
